Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 1-4 in the reply filed on 1/25/05 is acknowledged. The traversal is on the ground(s) that it is not a "serious burden" on the examiner. This is not found persuasive because only the retention clip is being claimed in Group I while the system which in addition to the retention clip is being claimed in Groups II & IV. The additional features in Groups II & IV would require the examiner to search into a different areas thus burden on the examiner. Similarly for the method claims in Group III would require an additional search in different method class thus burden on the examiner.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2, and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Kasden (US 5,348,495).

Kasden discloses a cable plug retention clip comprising:

a clip body (13) adapted to secure a cable plug (64) to a power distribution unit (10),
comprising:

Art Unit: 2833

a first retention mechanism (50, 18);

a second retention mechanism (48, 46);

wherein a first distance (distance between members 28, 30) is substantially equal to a second distance (distance between members 46, 43);

wherein the clip is a U-shaped frame (see Figure 2).

Allowable Subject Matter

4. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach the first and second retention mechanism comprise lower and upper teeth of the clip body, respectively, and wherein the first and second mating retention structures comprises a slot of the power distribution unit and a lip of the cable plug, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
